

## Luxury line

## Excelsior 2-3 group

Fully automatic, top of the range with special "ultra modern retro" design

Suitable for: Large cafes, pubs/bars, med-large restaurants

**Raised version:** raised outer case and brewing groups to allow the use of "EXTRA SIZE" cups and glasses (maximum height available under the brewing spout = 180mm).

Options: Lower version

Brewing Groups with "Dynamic pre-infusion device".

Stainless steel steam arms with innovative design (HIGH FLOW for better milk frothing).

Optional: Automatic Cappuccinatore

Bullone Rosso is a new brewing technological innovation from Brasilia which gives a superior espresso extraction and higher temperature stability levels than other traditional machines on the market. It allows fine control of the temperature in each individual group head so that conditions can be accurately set to suit different blends of coffee.

Brewing groups come with pre-infusion device (Static Infusor), single group water temperature controlled by 3 positions flow selector for a Perfect Espresso from any coffee blend.

- Beautiful and functional... retrò-styled but innovative and charming at the same time, combined with high performances .
- Designed in accordance to the latest ergonomic requirements to meet the need of the professional barista (i.e.: the wide circular base as a large drip tray and a real working area for the drinks preparation).
- Perfect for trendy and fashion locations.

### Main Features:

Clock mounted on machine panel  
Cup warmer  
2 steam taps  
1 hot water tap.  
Automatic boiler water level.  
Boiler water level gauge.

**Auto cleaning** device allows for easier clean up

**Pre infusion** dynamic device allows for best possible espresso

**Bullone Rosso** - technology makes sure that the coffee never gets burnt no matter how many coffees are made.

**Cup rest** Raised version comes with cup rest for smaller cups

**"EASY ACCESS"** outer case in 3 pieces for an easy service on-site.

Boiler equipped with water/steam line tapping for an easy and fast technical service.

Thanks to these new technologies Excelsior has been approved by the "WBC"- World Barista Championship Technical Committee to be used during the official competitions by the best baristi worldwide.
