

Stainless Steel polished finish.

Production: 20-25 fruits/min.
3-4 16oz glasses of juice per minute

F-50 JUICER

The FRUCOSOL F-50 stands out in the world of juicers because of its functionality, strength, reliability, and of course profitability

Key Features & Benefits

Automatic machine of manual feeding that produces fresh orange juice, enjoying all the benefits from the C vitamin.

Thanks to its whole stainless steel finished its life is longer than any other machine you can find.

The squeezing is carried out with a controlled pressure that avoids the extraction of the bitter compounds produced by the essences of the peels.

It includes a storage basket that enhances its autonomy on working.

Due to its easy working and simplicity of cleaning, it is the perfect tool for your business

F-50A JUICER

The FRUCOSOL F-50 stands out in the world of juicers because of its functionality, strength, reliability, and of course profitability

It is **completely automatic**, easy to use, and its working system does not squeeze the peel and allows you to get a fresh juice without bitter remains. It provides us with a great efficiency because it squeezes the juice and the pulp remains in the peels.

The feeder system have an automatic revolving basket of easy dismantlement; oranges are placed in bulk, and then the turn mechanism makes them to fall into the machine.

Design of forms, surfaces and textures in a way that facilitate an easy cleaning, avoiding the accumulation of dirt and micro organisms
