

Ideal for: Office reception, boardroom, staff canteen, car show rooms etc

Kenco Singles Brewer

The key reasons to go for a Singles Machine:

- Can be located almost anywhere
- Plumbed or manual fill
- Eighteen drinks options available
- Quick and very easy to use
- Low maintenance
- Ideal for small offices/reception
- Neat and chic design
- Cost effective hot drinks

Electronic Display

The built in electronic LCD display shows the user the machines status at every stage of operation, with short and simple messages such as "Machine Ready", "Unit Heating", "Empty Bin" operating is easy and simple for staff, clients and almost anyone alike.

Easy To Use System

The Kenco singles system has been designed around the simplest of operation, "childs play" even, simply select a branded Kenco singles capsule from the range, insert the capsule, put your cup under and out comes your drink. Freshly made every time. - Perfect for meeting rooms, foyet or reception areas, salons, car show rooms and indeed almost any establishment where simple coffee solutions are ideal. - Not For Coffee Shop Use.

Easy As 1, 2,3

1. Place your Kenco singles cup under the machine
2. Insert your specified Kenco singles capsule
3. Drink is served seconds later

Fresh Filter Drinks - Fresh Every Time

The Kenco Singles Machine really delivers on a broad range of beverage requirements. It is perfect for the small office which wants high quality, quickly served hot drinks. It also scores highly with its chic good looks, a reason it is very popular with clients who want to offer their customers coffee in a waiting room, reception or meeting rooms.

The machine can operate either from a plumbed in point, or simply top up the water yourself every few days - truly a machine which is easy to install and maintain.

Kenco Singles Echinacea & raspberrry allows kenco singles users everywhere to enjoy this speciality at its best... "fresh" - every cup!

15. Twinings Peppermint Twinings

This refreshing peppermint infusion is particularly popular after lunch as it is widely perceived to aid digestion

How the capsule works

Each capsule works like it has its own filter machine but faster.

A foil seal locks in freshness whether it's real ground coffee, quality tea or hot chocolate drinks. Once inserted into the brewer, hot water flows through the capsules via micro channels.

As it passes over the roast and ground coffee it instantly delivers a freshly filtered hot drink - made to perfection
